Current projects done: Fitness Tracking System, Online Learning System, Real-estate Project, FullStack Album Selling Website Using JavaEE, MySQL, Online Vendor Management System

GPA: 3.9/4.00

RELEVANT EXPERIENCE

HackAtom Myanmar 2024

August 2024

Team leader of Team NovaCore

- As the team leader of Team NovaCore, I led a group representing the University of Computer Studies, Yangon in the HackAtom Myanmar 2024 Science Festival, held at Yangon Technological University.
- This experience showcased my leadership skills, ability to collaborate effectively within a team, and enthusiasm for engaging in tech competitions.

Mapito Project

April 2025 present

Founder & Developer of Mapito

- I developed Mapito, a personalized roadmap generator for developers using AI to create step-by-step learning paths based on user goals.
 - Integrated smart quizzes, live code compiler, AI mock interviews, and typing speed tests to make learning interactive.
 - Focused on ethical AI use, ensuring the platform supports learning without collecting unnecessary user data.
 - Enabled users to download their personalized roadmaps as PDFs, making it easier to track progress offline.
-

ADDITIONAL EXPERIENCE

Talk With Me

May 2024 - July 2024

Mental Healer

- Volunteered with the "Talk With Me" program under the With Me organization, contributing to youth support initiatives by facilitating meaningful conversations and promoting mental well-being through active listening and peer engagement.
-
